Conference Presentation

The 1st National Conference on Chemistry and Associated Sciences (1st NCC-AS) aims to bring together academics, researchers, and industry professionals to discuss the latest advancements and innovations in various fields of chemistry. This conference provides a platform for knowledge exchange and fosters collaboration across disciplines, including organic, inorganic, analytical, physical, Pharmaceutical and industrial chemistry. Participants will be able to present and explore emerging trends, fundamental research, and novel discoveries shaping the future of chemistry.

Conference topics

The conference will focus on multiple fields of chemistry and related disciplines, with key topics of interest including:

Topic 1: Pharmaceutical Chemistry.
Topic 2: Organic Chemistry
Topic 3: Materials science and Environmtal chemistry.
Topic 4: Analytical chemistry
