About

The First National Conference on **Mathematical Analysis and Algebra (NCMAA 2025)** aims to bring together researchers, academicians, and postgraduate students from various institutions to discuss recent advances, challenges, and applications in the fields of mathematical analysis and algebra. This event provides a dynamic platform for the exchange of innovative ideas and for strengthening collaboration among mathematicians across Algeria and beyond.

The conference seeks to highlight both theoretical and applied aspects of mathematics, with particular emphasis on analysis, algebraic structures, and their interactions with other scientific disciplines such as physics, engineering, and artificial intelligence. By promoting dialogue between experts in these fields, NCMAA 2025 endeavors to foster research excellence and to contribute to the development of modern mathematical sciences.

Participants are invited to present original research papers, share insights on recent developments, and explore potential interdisciplinary applications. The conference will also feature plenary talks, parallel sessions, and discussions on emerging trends in pure and applied mathematics.

Topics of Interest

- **Applied Functional Analysis.**
- **Fuzzy Sets and Applications.**
- **Partial Differential Equations and Applications.**
- **Mathematics and Applications.**
- **Number Theory.**

How to Participate

Researchers interested in participating must:

1. Download the official submission form.

[Click here to download the participant template file](#)

2. Submit the completed form along with their abstract or paper via email to:

Submission Email: cnmaa2025@gmail.com

| Submission Deadline: November 15, 2025.

يسعدني أن أرحب بكم أجمل ترحيب في مدينة السعادة بوسعادة، هذه المدينة التي أهتم الفنان ناصر الدين دينيه فقال عنها:

"إن كانت الجنة في السماء فهي فوق بوسعادة، وإن كانت تحت الأرض فهي تحت بوسعادة."

نرحب بكم بين أهلها الطيبين، ونتمنى أن تستمتعوا بجمالها الطبيعي وروحها الهادئة، وأن يكون هذا الملتقى فضاءً مثمرًا للحوار والتبادل العلمي.

مع أطيب التحيات، الدكتور زيان إبراهيم.
